

Student Success 2021

Guildford Grammar School

FOUNDED 1896

We congratulate all of our Year 12 students for their outstanding achievements and contributions throughout 2021. Their results in ATAR, General and Vocational Education and Training (VET) pathways demonstrate that our school continues to inspire students to Go Forward on their own unique journey to achieve personal success. We thank our 2021 graduates for their many contributions to the co-curricular and cultural life of Guildford Grammar School - through sport, the arts, leadership, competition and our unique House system. Each and every student has made their mark.

Our students are fortunate to have a broad range of pathways available to them. A number of our students have successfully secured employment, apprenticeships, traineeships, scholarships and TAFE placements in a wide range of industries, as well as those seeking and achieving university entrance. This success wouldn't be possible without our individual focus, dedicated support, extraordinary opportunities and student choice.

We thank our skilled and passionate staff for empowering students to find their own individual strengths and passions on their journey to fulfil varied and exciting futures. On behalf of Guildford Grammar School, I congratulate all of our Year 12 students on their excellent efforts and their outstanding impact on our school. I wish them every success and happiness for their bright futures.
